Wheat Opens Higher On the Small Increase in the Visible Eupply.

#### CHICAGO PRODUCE MARKETS.

CHICAGO, Oct. 10,- Special Telegram to the BEE. !- The opening in wheat was strong and higher, in expectation that the visible supply statement would show a less increase than was estimated, which expectation was fulfilled, the increase being but 379,000 bushels, against estimates running from 750,000 bushels to 1,500,000 bushels. Added to this was the strengthening influence of early cables, public and private, and an advance of Mc in November and December and Mc in May was scored from the opening figures. Then came the October government crop report with its estimate of a 450,000,000 bushel wheat crop, which was reckoned to be about 20,000,000 bushels greater than the September estimate by the same authority. Very liberal offerings followed upon the knowledge of these figures, and some long wheat coming out upon the decline accelerated the movement. The New York market was weak and lower, said to be on account of the heavy movement in the northwest, although in this market bad weather in that section was taken, in early trading, as a bull argument, as tending to delay farmers' deliveries there. The depression caused by the large wheat figures of the government continued to the end of the

the government continued to the end of the session, the close being weak at a fraction above the lowest point at 70½ (70½ c for November, 72½ c for December and 77½ c for May.

The late session of the market was marked by greater interest and a greater volume of business in the corn pit than has been noticed for several days. The opening was about at Saturday's closing prices, with a decline of ½ c shortly after. The market was fairly steady, with but little business until nearly noon, but the heavy receipts were too much and there was then a drop to ½ c below the opening figures for November and ½ c for May. The close was at 42½ c for November and 45(445½ c for May.

The speculative market for oats was weak in sympathy with other articles. The opening figures were substantially the same as Saturday's closing, but as the forenoon wore away the feeling became heavy, trade dragged and prices eased off from 26½ c for November to 26(26)½ c, on the split, and May from 29½ c to 20½ c, closing at 1 o'clock at the inside rance.

In provisions the quiet state of affairs

inside range.

In provisions the quiet state of affairs lately witnessed was continued. The week epened with the market in too featureless a condition to branch out with even moderate freedom. It was a slow and uninteresting

freedom. It was a slow and uninteresting day, yet owing to the advance in hogs, which arrived more sparingly than was anticipated, quite a strong feeling held control.

AFTERNOON SESSION.—Wheat, quiet; October 504,00093c. December 725,00725c. May 77360773cc. Corn steady; November 426,423c, December 443,6413cc, May 45c bid. Oats steady. #### CHICAGO LIVE STOCK.

CHICAGO, Oct. 10 .- [Special Telegram to the BEE. J-CATTLE-Trade was active in the native line, with an up-turn of about 10c on prime corn-fed natives. Plain and low grade natives went at about the same prices as at the close of last week. Shippers were liberal buyers, but seemed to be satisfied with the ordinary run of good, useful natives. Rangers and Texans formed about 6,000 out of the 11,000 fresh cattle, selling about the same as last week, or say at the lowest price remembered by the oldest dealer. Native butchers' stock remains at the former low prices. There was some inquiry for stockers and feeders, yet business in this pranch was very dull. ### oFINANCIAL.

NEW YORK, Oct. 10 .- | Special Telegram to the BEE.]-STOCKS-The bearish feeling noted in the stocks at the close of last week showed no abatement, and it has become the popular side, particularly among western operators, who heretofore have generally played on the bull side. The bulls have no concert of action, while in the bear ranks everything runs harmoniously and is of great advantage, and with their already large prestage they were able to cut a larger swath in the market. The bear leaders appear confident of their position and are betting their profits heavily and forcing holders to liquidate so freely that prices are lower than at any previous time this year. The bulk of buying appeared to be by shorts, who had large profits and were taking them while in sight. A decidedly feverish feeling prevailed. Garrett, after much blustering, has suddenly come to the conclusion that he was powerless to prevent the sale of his Baltimore & Ohio telegraph line, and has subsided. The market opened ragged. Western Union was strong and despite the self ag by London, the buying by Drexel & Morgan and Connor caused a % per cent advance. The appreciation was expected to have its effect upon the general list, but it tailed, the offer in s of other properties being too strong. of Reading had been ordered in favor of bondiders of the 5s and that the road was to be old in three sections, first, the Reading main line, second, the Tabor branch, and third, the leased lines. This would leave the Northern Pennsylvania and Bound Brook branches without termina's. The stock was sammered vigorously, but exhibited decided stubbornness and advanced 1% per cent but it did not hold. The weakest stocks on the itst were Lake Shore and Erie, which were

up well, but the pounding it received proved too much, and it dropped 2 points and Erte 1%. St. Paul broke 1 point and Northwestern 1 point. Union Pacific only dropped % per cent on the selling of over 10,000 shares by Bateman. The weakness continued until the close, when last sales on a majority of stocks were at inside figures and recorded declines extending from % to 2 per cent, Reading and Missouri Pacific show ing the least and Cotton Oil stuffs, Pacific Mail, Erle, Northwestern, Louisville & Nash-ville and Chicago, Burlington & Quincy, Rock Island, and Richmond Terminal leading the advance. The bear houses in Chicago traded heavily, large short lines were covered and many fresh ones put out, making the short interest larger than heretofore. The total sales were 374,277 shares.

Hoga.
The receipts of nozs were extremely light even for the arst day of the week, there being

only five loads on the market. The market was very excited and the buyers took what was offered at 35 and 40c, in some cases not even looking at the hors. The reports from Chicago indicated an advance of 10c in the market and that fact, taken together with the extremely light receipts, was the apparent cause for the prices paid here. The receipt of an order from Kansas City to buy hogs for Armour's house there, may also have had something to do with sending up the market.

Sheep.

There were two double deck loads of fresh receipts which sold on the market. Official Receipts.

The next meeting of the Nebraska Live Stock Shippers' association will be held at Exchange hotel, South Omaha, Neb., Wednesday, October 12, 1887, at 2 p. m. The by-laws have been amended so as to admit any shipper of six months' actual business, no matter from what state he hails. Consequently the invitation is to all live stock shippers.

invitation is to all live stock shippers.

"Shippers ought to be warned," said a salesman, "not to rush in too many hogs on Wednesday of this week. It is expected that a good many shippers will come in to see the president on that day and also to attend the meeting of the Live Stock Shippers' association. The president's visit to Chicago was attended with a bad break in the hog market by reason of the heavy receipts, and it would not be surprising to see the same thing here."
